Introducing the AR Agent

Your Invoices. *Collected.* Automatically.

A bespoke AI employee that chases payments, resolves disputes, and slashes your DSO — **without adding headcount**. Operates 24/7 across email, voice, and portals.

**What's
New**

↓40%

DSO Reduction

Days Sales Outstanding reduction — the single metric your CFO tracks most

24/7

Always On

Always-on collection across every time zone, without interruption

ZERO

Manual Errors

Zero manual data entry or reconciliation errors — ever

What the AR Agent Does

CORE FUNCTIONS

Operational Automation

→ Invoice Management

Sends and auto-follows-up on invoices; monitors due dates and triggers reminders via email, SMS, and voice

→ Payment Reconciliation

Reconciles incoming payments against open invoices automatically — no manual matching required

→ Escalation & Dispute Handling

Flags overdue accounts, escalates to human staff, and handles customer dispute queries around the clock

INTELLIGENT LAYER

AI-Powered Intelligence

→ Predictive Risk Scoring

Predicts at-risk invoices before they go overdue and prioritises collections by customer risk profile

→ Negotiation & Tone

Negotiates payment plans within your parameters and writes dunning communications in exactly the right tone

→ CRM-Aware Touchpoints

Syncs CRM context before every customer touchpoint — relationship-aware at every interaction

Integrates With Your Stack

SAP

Oracle

NetSuite

Why Finance Leaders Choose the AR Agent

Slash DSO

The single metric your CFO tracks most — reduced by up to 40%

Zero Reconciliation Errors

Eliminate manual data entry mistakes entirely from your AR process

Cut AR Team Costs

Significantly reduce AR team costs without losing coverage or quality

Relationship-Aware

Syncs CRM context before every touchpoint to protect customer relationships
